

Solid fuel expertise.

FKU – the sturdy boiler
that lasts and lasts.

FKU – The inexpensive
solution for solid fuels.

Rated heat output range
12.7 to 32.6 kW

A proven performer with solid fuels.

FKU – Simple, efficient and reliable.

You're cost-conscious and ahead of your time. You want to heat independently and place great value on reliability and comfort. Then the FKU is the perfect heating solution to meet your needs. Decades of experience in manufacturing natural draught boilers have been optimised and implemented in the FKU. The result is a particularly robust heating solution that offers convincing functions and efficiency – a sturdy boiler that lasts and lasts, with many benefits:

- **User-friendly operation:**

- Large filling doors for easy loading and cleaning.
- Large filling chamber for sustained slow combustion (with coke).
- Heating flap is simple to operate from the front.

- **Reasonably priced, efficient in its consumption:**

- With an unsurpassed price/performance ratio, completely equipped with a built-in backup battery, minimum thermostat, combustion controlling mechanism, ash pan, boiler thermometer as well as stoking and cleaning set.
 - Large coasting surfaces and an especially effective flue layout permit particularly efficient heat utilisation.
- Economical and environmentally friendly operation are the convincing result.

- **Reliable and safe:**

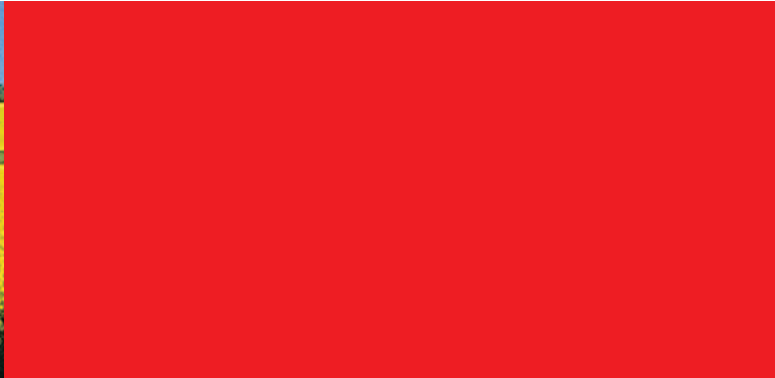

- Proven, ingenious natural draught boiler technology.
- Robust construction with a long-lasting grate.
- Optimum security thanks to the full five-year guarantee and fifteen-year guaranteed supply of spare parts.

Lower burning – Wood, coal

Upper burning – Coke

Flexible in operation.

Reasonable priced, reliable in its operation – the FKU is the perfect second boiler. It is delivered from our factory ready for flexible operation and can therefore be used with various fuels (wood, coal and coke). Also, as a compact boiler, it can easily be combined with Windhager oil units. This increases the fuel flexibility and future applicability of every heating system.

AquaWIN
Hot water tank available with or without "solar equipment".

CaloWIN
Accumulator tank for the best use of energy.

JetWIN/EcoWIN on FKU
Space-saving oil/solid fuel combination.

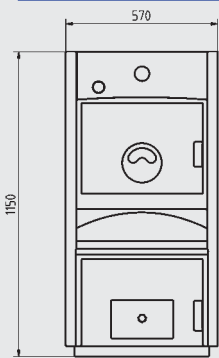

MES
Modular Energy System

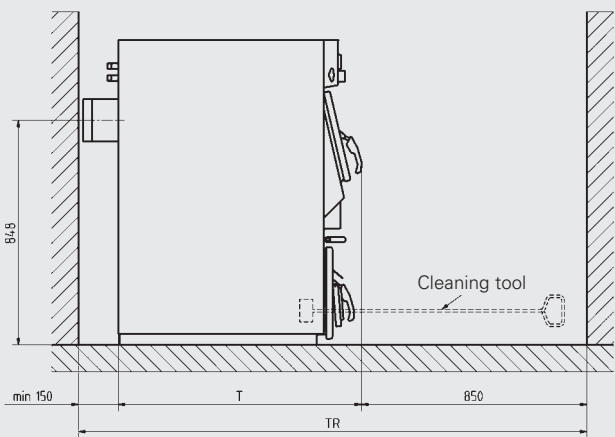

Radiators, underfloor heating and other heat consumers.

Technical data FKU

Types		FKU 165	FKU 215	FKU 265	FKU 335
Nominal heat output with coke	kW	14,9	20,9	25,6	32,6
Nominal heat output with wood/coal	kW	12,7	16,2	20,9	25,6
Max. wood length	cm	33	33	33	33
Fuel filling chamber	dm³	57	57	82	82
Filling opening	mm	360 x 170	360 x 170	360 x 170	360 x 170
Boiler weight	kg	205	209	251	256
Depth	T	mm	775	975	975
Room depth	TR	mm	1775	1975	1975
Flue gas tube connection	mm	150	150	160	160

Minimum service clearances:
(data in mm))

Boiler feed/return = 1" internal thread
Hot water tank feed/return = 5/4" internal thread

Windhager provides more than first-class products:

Quality consulting from our expert partners.

You can obtain WINDHAGER ZENTRALHEIZUNG products from our expert PARTNERS. Our partners are experienced heating specialists who work in close professional cooperation with WINDHAGER ZENTRALHEIZUNG to achieve the best results for our customers.

Professional customer service network.

Perfect customer service is one of the mainstays of WINDHAGER's success. Our professional customer service network guarantees the best customer care every day. Our customer service technicians are experienced professionals who work quickly and reliably, without bureaucratic fuss.

Unique guarantees.

Our full five-year guarantee provides you with optimal security. This is because our unique full guarantee does not just cover material (excluding worn parts), it also includes the travel and labour costs of the customer service technicians. Not only that, but we also guarantee that we will continue to supply your device with spare parts for 15 years from the date of purchase.
